Circular Details

£1000 WELCOME BONUS WHEN YOU JOIN UK INSTANT SERVICES LTDAs a Research Manager at Nurseplus, you will play a key role in helping inform our short and long term strategy – developing, managing and overseeing our external and internal research programmes; communicating business-critical client research, and championing insight-led decision making.This would suit someone keen to work as part of a team, but who can operate independently and using their own initiative. This is an exciting role that requires an analytical mindset, a passion for research and, provided you are keen to learn, there is considerable scope for self-development.The ideal candidate will have experience working in a similar role and be looking for the next step in their career. This is a busy role, so you will need good time management skills, flexibility and the ability to manage multiple priorities at once.What is the job?Conduct client research and analysis to inform business strategyDevelop competitor analysis models to inform local, regional and national planningManage internal staff insight to ensure Nurseplus remains an employer of choiceProduce monthly market updates for key internal stakeholdersPlay a key role in identifying new regions and markets for business expansionWork as part of the commercial team, which includes Business Development, Marketing and Tenders and Contracts
